

Tasks:

- Read the file `/etc/passwd` and notice the different fields. Extract your info from it.
- What is the different between `cat` and `more` command
- What is the difference between `rm` and `rmdir` using `man`?
- Create the following hierarchy:

- Remove `dir11` in one step. What do you notice? And how to overcome that?
- Then remove `dir12` using `rmdir -p` command. State what happened to the hierarchy (Note: you are in your home dir).
- The output of the command `pwd` was `/home/myuser`. Write the absolute and relative path for the file `mycv`
- You are in `/usr/bin`, list four ways to go to your home directory.
- Copy the `passwd` file to your home directory making its name is `mypasswd`.
- Rename this new file to be `oldpasswd`.
- List Linux commands in `/usr/bin` that start with letter “w”
- Display the first 4 lines of `/etc/passwd`
- Display the last 7 lines of `/etc/passwd`
- Display the users who are logged now to the system.
- Display the man pages of `passwd` the command and the file sequentially in one command.
- Display the man page of the `passwd` file.
- Display a list of all the commands that contain the keyword `passwd` in their man page
